

ABOUT US  
**ABOUT US**  
 TWIN PINES FARM

Twin Pines Farm opened a PATH (Professional Association of Therapeutic Horsemanship) for children with disabilities in 2006 named "Faith Equestrian Therapeutic Center"

Many folks know us only by our center name. Twin Pines is the "Home" of Faith Equestrian Therapeutic Center.

Twin Pines farm has developed a **summer day camp program for able bodied children** to help support the therapeutic program for special needs children. In this way families can bless families.

**The way it works**

Your camp donation goes to help us keep the program going for the children with disabilities. It's win, win!! Your kids get an opportunity to enjoy a week of learning to ride horses, and care for them from a professional instructor with 40 years experience, and our special needs children get the opportunity to enjoy activities with horses as well, *because* of your support!

Families of children with disabilities don't have money left over after paying their medical bills to provide their children with many fun activities outside the clinical walls. So won't you help us to help the children we serve? And provide your child with a great experience in a wholesome family friendly environment at the same time!

**TWIN PINES**
